
Industrial Development
Brisbane Airport

THE OPPORTUNITY

Be amongst quality brands Miele Australia, Downer, DHL, Australia Post, GPC Repco and Haymans Electrical in the highly established and successful industrial precinct, Export Park.

Pre-lease opportunities exist for 4,740m² to 25,500m² on both standard industrial and airside access development sites.

With demand rising there is no better time to make the move to Export Park.

BRISBANE AIRPORT

Brisbane Airport (BNE) is the premier gateway to Queensland. Curfew-free and operating 24/7, BNE will double its passengers, jobs and investments in the next 20 years.

With Brisbane's New Runway, BNE Auto Mall and 100+ other construction and development projects onsite or in planning, BNE's 2,700 hectare leasehold is one the most significant growth hubs in Australia.

BNE Property is the division of Brisbane Airport Corporation, operators of BNE, that guides the flexible and sustainable development of approximately 500 hectares of the leasehold land.

Our approach is to provide guidance through the development process, deliver timely and at-cost projects, and support the ongoing operation of facilities.

MOVING TO BNE

Export Park has direct linkages to South East Queensland's dynamic transportation network, unrivaled onsite amenity and ability to operate 24/7.

Amenity

Skygate, BNE Service Centre and the Domestic and International Terminals provide tenants at Export Park with extensive onsite shopping, dining and lifestyle options. Nightshift workers benefit from the 24/7 amenity of Woolworths and Jetts Fitness within Skygate Centre and McDonalds and Coles Express at BNE Service Centre.

Additional amenity options will be added to this extensive range with the opening of BNE Auto Mall in 2021.

Flexibility

Our flexible approach enables us to tailor our offering to our clients' needs. Whether it be purpose-built facilities or ground leases to facilitate owner/occupiers or investors, our team will make the best fit for a company's size, location, workforce, process and financial requirements.

Property Management and Facilities Maintenance

Our service continues long after a project is complete, through our in-house property management and facilities team. Our property managers build relationships with our tenants during the project development phase. This enables seamless transition between project completion through to relocation and operation. Access to facilities management is 24/7 so that our tenants can continue to operate with minimal disruption.

Gigabit Precinct

BNE is leading the way establishing Australia's first airport gigabit precinct with 250 km of new state-of-the-art full fibre infrastructure enabling existing and new business tenants access to ultra-fast internet connectivity. The fibre network, combined with an industry grade Data Centre and Internet Exchange already onsite, means BNE is capable of offering business tenants 1,000 Mbps upload/download speed, compared to best case NBN connection of up to 100 Mbps.

Sustainability

BNE is the first precinct in Australia to be awarded a Green Building Council of Australia Green Star. Our integrated power network, water management system and solar initiatives aim to maximise energy efficiencies across BNE. Dedicated biodiversity zones protect 285 hectares of wetlands and grasslands that are home to local flora and fauna.

We develop and implement Ecological Sustainable Design guidelines for all developments. Significant assets undergo a sustainability benchmark internal assessment using tools such as the National Australian Built Environment Rating System (NABERS) and the Green Building Council of Australia's Green Star Performance program.

BNE Airport Club

The program gives the on airport working community the opportunity to access a number of exclusive discounts, offers and promotions from premium onsite and airport partner retailers.

BNE Enterprise

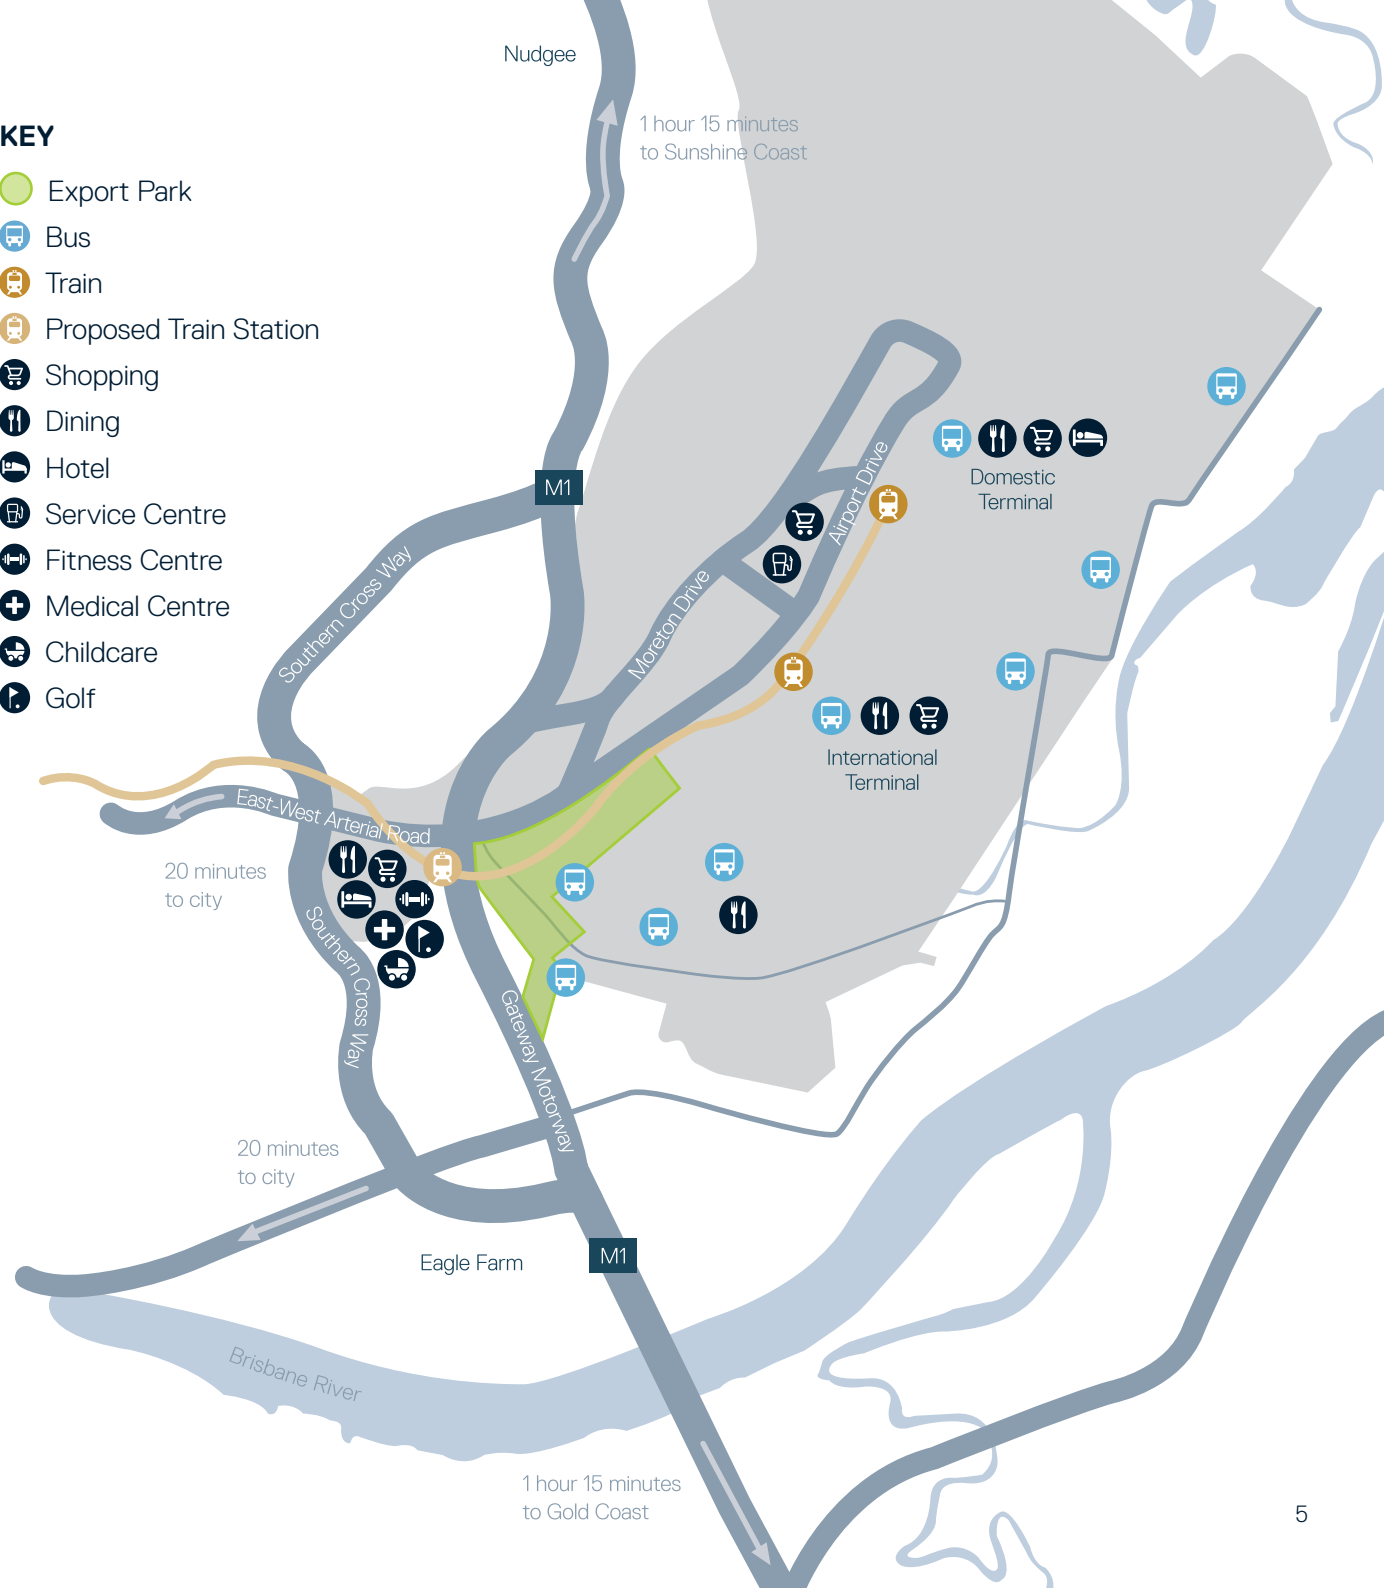

Businesses at BNE can access BNE Enterprise, a non-profit organisation with an independent board dedicated to generating positive business partnerships and support across all precincts.

Security

The precinct is patrolled by private security and is reinforced by a strong Australian Federal Police presence on airport on a 24/7 basis.
